Volume 337 · 1990

Springer International

Fresenius' Journal of Analytical Chemistry

Continuation of Fresenius' Zeitschrift für Analytische Chemie

Begründet 1862 und herausgegeben bis Band 20 (1881) von *C. Remigius Fresenius*, bis Band 36 (1897) von *C. Remigius* und *Heinrich Fresenius*, Band 37 – 58 herausgegeben von *Heinrich* und *Wilhelm Fresenius* und *Ernst Hintz*, Band 59 (1920) bis Band 105 von *Wilhelm, Remigius* und *Ludwig Fresenius*, Band 105 (1936) von *Remigius* und *Ludwig Fresenius*, Band 106 bis 127 (1944) von *Remigius Fresenius*, Band 128 (1948) herausgegeben von *A. Kurtenacker*, Band 129 (1949) bis Band 187 (1962) von *W. Fresenius* und *A. Kurtenacker*, Band 188 (1962) bis Band 310 (1982) von *W. Fresenius* und ab Band 311 (1982) von *W. Fresenius* und *I. Lüderwald*.

Bis Band 59 (1919) Wiesbaden, C. W. Kreidel, Band 59 – 62 (1922) Wiesbaden, C. W. Kreidel, und München, J. F. Bergmann, Band 63 – 127 (1944) München, J. F. Bergmann, ab Band 128 (1948) Berlin, Springer, und München, Bergmann.

Copyright

Submission of a manuscript implies: that the work described has not been published before (except in the form of an abstract or as part of a published lecture, review, or thesis); that it is not under consideration for publication elsewhere; that its publication has been approved by all coauthors, if any, as well as by the responsible authorities at the institute where the work has been carried out; that, if and when the manuscript is accepted for publication, the authors agree to automatic transfer of the copyright to the publisher; and that the manuscript will not be published elsewhere in any language without the consent of the copyright holders.

All articles published in this journal are protected by copyright, which covers the exclusive rights to reproduce and distribute the article (e.g., as offprints), as well as all translation rights. No material published in this journal may be reproduced photographically or stored on microfilm, in electronic data bases, video disks, etc., without first obtaining written permission from the publisher.

The use of general descriptive names, trade names, trademarks, etc., in this publication, even if not specifically identified, does not imply that these names are not protected by the relevant laws and regulations.

While the advice and information in this journal is believed to be true and accurate at the date of its going to press, neither the authors, the editors, nor the publisher can accept any legal responsibility for any errors or omissions that may be made. The publisher makes no warranty, express or implied, with respect to the material contained herein.

Special regulations for photocopies in the USA

Photocopies may be made for personal or in-house use beyond the limitations stipulated under Section 107 or 108 of U.S. Copyright Law, provided a fee is paid. This fee is US $ 0.20 per page, or a minimum of US $ 1.00 if an article contains fewer than five pages. All fees should be paid to the Copyright Clearance Center, Inc., 21 Congress Street, Salem, MA 01970, USA, stating the ISSN 0937-0633, the volume, and the first and last page numbers of each article copied. The copyright owner's consent does not include copying for general distribution, promotion, new works, or resale. In these cases, specific written permission must first be obtained from the publisher.

New books 320, 416

Abstracts

1 General analytical chemistry

1.1 Fundamentals, methods, apparatus, reagents, automation, data processing 323, 418

1.2 Inorganic analysis 330, 426

1.3 Organic analysis 333, 430

2 Particular products and fields of application

2.1 Inorganic industrial products 432

2.2 Organic industrial products 336

2.3 Geological materials 436

2.4 Environmental matrices 338, 437

2.5 Soils, plants and agricultural technical products 341

2.6 Foods 343, 443

2.7 Pesticides 346

2.8 Pharmaceuticals and cosmetics 348, 444

3 Biochemical and clinical analysis 351, 447

Author index 887

Subject index 894
